

-- I believe that the FCC should not implement
any proposal that would lessen
Indiana's Telephone Privacy law
protections.

--I have a sleeping disorder and because the several unwanted calls I would
have a very hard time sleeping. I would no sooner get to bed around 9pm and
from that time until 10:30pm the phone would ring at least 5 to 10 times. For
someone who can't fall a sleep after they have been woke this is very anoying.
And don't even say I could take the phone off the hook, it's my phone and I
should have to do that just to keep beggers from calling.

I use to receive at least 10 or more calls a night and now I receive maybe one
a week.

This has been one of the best laws that Indiana has put into place. Please
don't change it.

Thank you for your attention to this
message.
